## SUMMARY

---

Junior software developer and QA tester with hands-on full-stack development and software testing experience across educational and IT-sector projects, digitizing records for 100+ users and improving operational efficiency. Skilled in Java, C#, SQL, JavaScript, Electron, and the full software development lifecycle, with a working foundation in cloud computing, DevOps, and Azure. Experienced in functionality, usability, and system testing, bug tracking, and defect management.

## SKILLS

---

Software Development: Java, C#, ASP.NET Core, SQL, T-SQL, HTML, CSS, JavaScript, Electron, Full-Stack Development, Git, GitHub

Software Testing and QA: Test Planning, Test Case Design, Functional/Usability/System Testing, Bug Tracking, Defect Management, System Troubleshooting, Cross-Browser Testing

Cloud, DevOps & Professional: Microsoft Azure, Docker, Data Backup and Recovery, Communication, Collaboration, Problem Solving, Attention to Detail, Time Management, Adaptability

## EXPERIENCE

---

### ICT Department On-the-Job Trainee

February 2026 - June 2026

*Tañong National High School, Malabon City, Philippines*

- Developed an Inventory Management System, Registrar System, and Guidance System using Electron, Java, SQL, HTML, CSS, and JavaScript, with Git and GitHub for version control, digitizing records for 100+ school assets, students, and counseling cases.
- Collaborated with ICT department staff across three full-stack projects and assisted the Finance Department with liquidation documentation, processing 25+ documents and reports.
- Implemented a data backup and recovery protocol for school databases, reducing the risk of data loss and enabling system restoration in under 15 minutes during test scenarios.

### QA Tester, Capstone Project

March 2025 - December 2025

*Integrated Wi-Fi Security and Engagement System, Brooklyn Warehouse Manila, Manila, Philippines*

- Conducted functionality, usability, and system testing across 15+ test scenarios for a web-based Wi-Fi authentication and analytics platform.
- Developed and executed 15 test cases, logged 20+ bug reports, and debugged and resolved 20+ system issues across multiple browsers and devices.
- Collaborated with developers to verify bug fixes, track defects to resolution, and improve overall application stability.

## EDUCATION

---

### Bachelor of Science in Information Technology

August 2026

*National Teachers College, Manila, Philippines*

## CERTIFICATIONS

---

### Azure Fundamentals (Identity, Storage, Compute) and DevOps Foundations

2026

*Accenture Academy*

- Coursework in Full-Stack Development with C# (ASP.NET Core, Web APIs), SQL/T-SQL, Docker, and DevOps deployment practices.

### Introduction to Data Science

2026

*Cisco Networking Academy*

- Built foundational knowledge in data analytics, AI/ML data pipelines, and data-driven decision-making.

## LEADERSHIP AND INVOLVEMENT

---

### Auditor

September 2024 - June 2025

*National Teachers College Library and Computer Society, Manila, Philippines*

- Conducted 4 organizational audits over a 10-month term and presented findings to a 5-10 members executive board in monthly meetings, supporting transparent decision-making.
- Designed audit checklists across 3 departmental workflows, enabling systematic evaluation and risk identification for annual compliance review.
